## TURN8 TACTICAL EQUITY FUND

The TURN8 Tactical Equity Fund allocates capital across three distinct strategies. The largest segment is comprised of long-term positions in top-performing global equities, and makes up 50% of the portfolio. The medium-term strategy (30% of the portfolio) is made up of sector and country ETFs which TURN8 believes will outperform on a 3-6 month timeframe. The short-term view of the world makes up our final 20%, and consists of risk-on and risk-off trades to take advantage of market upswings while scaling back market exposure during tougher times. The Tactical Equity Fund aims to participate in upward-trending markets while minimizing losses during downtrends, thus creating superior risk-adjusted returns.
