

# MAJESTIC FUND PLATFORM

## WHAT IS THE FUND PLATFORM?

The Majestic Fund Platform serves as a facilitator for portfolio managers wishing to launch and/or manage their own funds. Since the launch and day-to-day operations of a fund is particularly burdensome, many brokers, investment advisors, investment firms, financial planners, or traders do not move forward with their objective of launching and/or managing a fund because of the high barriers to entry in the world of private investment funds.

## A TURN-KEY SOLUTION

Our Fund Platform offers a turn-key solution to creating and/or managing your own fund. We simplify the start-up process and create economies of scale at various levels by addressing the many concerns such as the burden of compliance with regulatory authorities, setting up agreements between the various service providers (auditor, administrator, lawyer, trustee, brokers, etc.), finding the qualified manpower required to operate a fund, and so on.

## HOW DOES IT WORK?

Majestic proceeds with a complete due diligence of the Portfolio Manager prior to its integration on the Fund Platform. Although we do recommend launching a fund with a minimum of assets under management, the initial size of a manager's fund in the past has ranged from few million to more than 50 million. For its role as Investment Fund Manager, Majestic retains either a percentage (%) of the fund's revenues or a few basis points (bps) on the fund's assets. Every fund is unique, so we remain flexible on the structure of every deal.

## DO YOU HAVE THE RIGHT PROFILE?

Being part of the Majestic Fund Platform allows for new opportunities. Are you:

- A registered investment firm working exclusively with managed accounts, which has a desire to simplify its operations, refine its business model and export/market its expertise?
- A registered Investment Fund Manager looking to save costs, outsource the compliance burden of internal funds, and increase its profitability at no cost to unitholders?
- A broker/ financial advisor/ financial planner who has a good client base, relevant experience, proper education and wishes to manage his own fund?
- A Mutual Fund Broker or Exempt Market Dealer looking to increase its profitability by promoting and distributing its own-brand funds?
